ABOUT ME

I'm frontend developer with experience in creating SPA using TypeScript/JavaScript, React, React-router-dom, Redux, Redux-toolkit, Formik. I have knowledge in user interface, testing, and debugging processes.
I improving my skills in this direction and plan to expand them with new technologies, such as React Native and NodeJS.
I usually spend my free time reading IT-literature (R. Martin), Codewars and improving my English (Skyeng).
Open to your suggestions.
